DEARMIT'S MEN QUIT

First Break at the Cleveland Gas Coal Company.

STRIKE LEADERS ARE JUBILANT.

They Soon Expect to Have All the Men Out—Result of the Oak Hill Meeting. Circular Issued to the Miners—President Ratchford Confident of Winning the Battle in a Short Time.

PITTSBURG, July 30.—The big meeting at Oak Hill was held and no bloodshed attended the event. The meeting was without doubt the largest ever held during a strike in western Pennsylvania and the leaders are hopeful of its effect upon Dearmit's men. When the meeting was called to order at 10 o'clock there were 3,000 striking miners in attendance, and before it was well under way there were 5,000 people in the vicinity of the schoolhouse. About 200 miners from the Sandy Creek mines marched to the meeting and quite a large number from the Turtle Creek.

The speakers told the miners that they were jeopardizing the success of the strike by continuing at work, and urged them to come out and make the suspension complete throughout the district.

After the meeting the Sandy Creek miners returned to work and the strikers went into camp and had lunch. Many were supplied with food enough to last two days.

Two hundred deputies were on duty, but their presence was not needed, as there was no trouble of any kind.

After the day meeting another meeting was arranged for last night, and it was attended by many of the men who have been at work. Several local speakers placed the matter before them in such a convincing way that the men from Dearmit's Turtle Creek mine resolved not to return to work in the morning.

This is the most important result of the big meeting, and it will be taken advantage of at once to influence the men at the other two mines to come out. The miners' officials are jubilant over this victory.

Engene Debs left the city last night for Columbus, on business which he declined to make public. Before leaving he expressed himself as greatly encouraged. He expects great results from yesterday's meeting.

WILL ANSWER BY MAIL.

Governor Atkinson Has Not Yet Examined That Injunction.

CHARLESTON, W. Va., July 30.—Messrs. Gompers, Ratchford and Sovereign, the committee who came here to confer with Governor Atkinson, have left. Gompers went to Washington, Ratchford to Columbus, O., and Sovereign to Fort Wayne, Ind. The governor told them that as soon as he received an official copy of the injunction issued by Judge Mason and examined it he would send his reply by mail to each member of the committee. The governor has telegraphed for a copy of the injunction.

Governor Atkinson had a long conversation by telephone with ex-Governor Fleming at Fairmont relative to the injunction. Governor Atkinson was of the opinion that the injunction was too far-reaching in its effects, but Governor Fleming said that it had been prepared with great care and was in accordance with all decisions of the courts upon the subject.

STRIKE EXTENDING EASTWARD.

Only a Short Time Until Many More Miners Are Out.

REYNOLDSVILLE, Pa., July 30.—The miners and mine workers of the Jefferson and Clearfield Coal and Iron company held a mass meeting here yesterday to consider the mining situation. The meeting was largely attended, all mines being idle, and the strike question was thoroughly discussed. Delegates were elected to visit the miners under the employ of the Jefferson and Clearfield Coal and Iron company at Dubois, Falls Creek, Eleonora, Pumasutawney, Walston, Enita, Adrian and other places, and call meetings to elect delegates to come to Reynoldsville next Wednesday and attend the convention of the Jefferson and Clearfield Coal company's miners.

The strike question is beginning to loom up here, and it will be but a short time before some action is taken. The men are strongly organized.

CIRCULAR TO MINERS.

President Ratchford Is Confident That the Miners Will Yet Win the Battle.

COLUMBUS, O., July 30.—A bulletin has been issued from the headquarters of the National Mine Workers, bearing President Ratchford's signature. It assures the miners that the coal supply is about exhausted, and would have been completely exhausted but for the production in West Virginia and western Pennsylvania. One thousand more men are now idle in the Pittsburgh district, making 21,000 in all idle there now. Ohio, Indiana and Illinois are still idle.

Fairmont district, W. Va., is said to be completely tied up, with 13,000 miners idle in the state, and rapid gains are being made by the organizers in spite of Winchester and injunctions. The miners are congratulated on their orderly behavior, and assured that if they stand firm they will be victorious.

Four Striking Miners Arrested.

WASHINGTON, Pa., July 30.—The first conflict between the law and the strik-

ing miners at McGovern took place yesterday, when Jim McManus, Tom Hayes, Ted and Andrew Savage were arrested and brought to Washington. The men are charged with having trespassed on the Allison mine property in contempt of the injunction recently granted by presiding Judge J. A. McIlvaine. It is said they loitered along a path leading to the pit mouth and used abusive epithets to the men going to work, such as "black sheep," "scabs," etc., and singing "We'll hang black sheep to a sour apple tree," to the tune of "John Brown's body lies moldering in the grave." They were put under bail to answer on Monday.

Closed an Illinois Mine.

ROANOKE, Ill., July 30.—Four hundred miners from Minonk, Wenona, Toluca, Kingley and Streator made a raid on the mines at Roanoke yesterday morning. They arrived at 3 o'clock and camped outside the town. A conference with the mine operators was held at 6 o'clock, the latter agreeing to close the mine and keep closed until the end of the general strike. The visitors were orderly, except that they seized a Santa Fe train and demanded transportation to Minonk. This was refused, and the train was held from 11 o'clock until 7:30 yesterday evening. Nearly all of the raiders have left town and trouble is no longer feared.

Trying to Get the Miners Out.

EVANSVILLE, Ind., July 30.—J. H. Kennedy, secretary of the Indiana miners, is here, in an endeavor to get the miners in this district to join the strike. Kennedy is urging all organized labor to use its influence with the miners. Evansville miners, he says, are sending coal to Chicago and many other places where it was never before thought of patronizing the operators of this city and the result is obvious. A mass meeting of the miners is to take place soon.

Bloody Scenes Feared.

WEST NEWTON, Pa., July 30.—It is reported here that the striking miners along the Monongahela and Youghiogheny rivers will march to Stickle Hollow to induce, if possible, the miners of the Washington Coal and Coke company and Perry Coal company to join their ranks. The former company is reported to be preparing to receive the men and the bloody scenes of 1894 in that place may be repeated.

Women Take Up the Fight.

WHEELING, July 30.—There is renewed indication of trouble in the Monongah district. The wives of the striking coal miners, to the number of about 200, have taken up the fight. Daily encounters between the women and Italian and negro nonunion diggers are occurring. The eviction of strikers from the company houses along the Monongah valley is in rapid progress.

Hard Blow to the Strikers.

WHEELING, July 30.—Last night in Benwood, just below the city, a meeting of the miners employed in the two mines of the Boggs Run company was held. By a close vote the Boggs Run men declined to come out with the strikers. This is a hard blow to the strikers in this district. The number of men involved is about 350 or 400.

Out of Coal.

PEORIA, Ill., July 30.—The Peoria strawboard mill, which has been running night and day since it started up a few months ago, after a five-year shutdown, was forced to close yesterday for lack of coal. This throws 150 men out of employment and raises the total of those in idleness here because of the strike to 1,500.

THE "DEVIL'S DEN" NO MORE.

The Land That Has Been a Wilderness Drained and Cultivated.

ELWOOD, Ind., July 30.—The "Devil's Den," from time immemorial a famous place in central Indiana, has, at last, been obliterated. It was a strip of land, four miles long and one mile wide, southwest of Elwood, and up to the present time was as ugly and uncultivated a spot as existed anywhere upon earth. It was entirely submerged and covered by a dense and tangled undergrowth that could not be penetrated. It was the retreat of snakes, frogs and numerous other species of reptiles, and game would flee to it when hard pressed by dogs and man.

By the passage of the state drain law a huge ditch drained off the poisonous water and uncovered a fertile soil. Farmers cultivated it this year and the yield of wheat, corn and oats from that once repulsive spot, will be enormous.

Richest Strike of Copper Ever Made.

HOUGHTON, Mich., July 30.—Five drill holes blasted in Six Mile Hill shaft broke seven tons of ground, over one ton of which was native copper. This is by far the richest strike of copper ever made and has caused great excitement throughout the Lake Superior mining district.

Woman Drowned.

SCHENECTADY, N. Y., July 30.—Mr. and Mrs. Marshall of Cincinnati were driving along the Erie canal yesterday near Visschers, when their horse became frightened and plunged into the water. The woman and horse were drowned.

An Accident in a Mine.

ATHENS, Ill., July 30.—While a gang of men were putting up props in the co-operative mine yesterday afternoon there was a fall of timbers. John Johnson was instantly killed, Joseph Dollar fatally injured and three others severely hurt.

PHEASANTS AND FISH

They Will Be Distributed by the State Game Commission.

WORK WILL BEGIN NEXT MONTH.

Two Thousand Five Hundred Birds Will Be Liberated Throughout the State, and Two Hundred Thousand Fish Placed in Ohio Streams—Various Other Items of Interest to Ohio Readers.

COLUMBUS, O., July 30.—The Ohio fish and game commission, at a meeting held at the Chittenden hotel, re-elected L. H. Rentinger state game warden and secretary of the board. It was decided to begin the distribution of pheasants the latter part of August. About 2,500 birds will be liberated throughout the state. It was stated in the meeting that the 200 pairs distributed last year have increased to 2,000 or more.

The distribution of fish will take place in September. About 200,000 fish of the black bass, crappies and marble catfish varieties will be placed in Ohio streams. The Olentangy and Scioto rivers will receive about 10,000 each.

Terribly Cut by a Reaping Machine.

BELLAIRE, O., July 30.—Samuel Heath, a young man about 20 years of age, was terribly cut and torn by a reaping machine in a harvest field just south of town. The horses took fright and ran away, throwing the boy in front of the knife and he was cut and torn from the shoulders to his feet, the worst injury being a great tear of flesh from the inside of the left leg to the groin and across the abdomen. Physicians dressed the wounds but this morning there was little hope for his recovery, though the boy was still living.

Quarrymen Quarrel.

HILLSBORO, O., July 30.—In a quarrel between Elmer Leaverton and Henry Lafferty, laborers at Rucker's stone quarries, one mile west of the city, Lafferty picked up a sledge hammer weighing 15 pounds and hurled it with all his might, striking Leaverton behind the ear and felling him to the ground. Leaverton was removed to his home, where it was found that his skull was fractured, one ear split and several teeth knocked out. Lafferty was arrested and locked up to await the result of Leaverton's injuries.

Alleged Horse Thief Escapes.

URBANA, O., July 30.—Newton Miller, who was arrested at Richmond, Ind., about a month ago for stealing a horse from a farmer near Mechanicsburg, and who was in jail awaiting the action of the grand jury, has escaped. Miller has been playing sick for several days and was taking medicine while watching a good chance to get away. Just how he escaped is not known. On account of his supposed illness he was allowed some freedom, which he took advantage of and left quietly without saying goodbye.

Kicked to Death.

FINDLAY, O., July 30.—Cloys Kirtland, a young man who resides with his brother-in-law, John Whistler, in this county, near Bluffton, was working in a field yesterday with a team of horses, when from some cause the latter became frightened and ran away. Kirtland attempted to hold them but was badly kicked about his face and body and died a few hours later.

Languishes in Jail.

LOGAN, O., July 30.—Nelson Fetheroff, a once prominent and well-to-do citizen of Laurelville, Hocking county, was brought to Logan yesterday and lodged in jail in default of \$500 bond, charged with burglarizing Jake Friends' safe and taking therefrom a quantity of liquor, tobacco and other articles. The goods were found in his possession.

Killed While Hiving Bees.

BELLEFONTAINE, O., July 30.—While cutting down a tree in which a swarm of bees had lodged and which John Brown, P. O. Deardorf and Art Barber were trying to hivo, the tree fell on Brown, killing him instantly. He leaves a wife and family.

Murderous Weapon Used.

CHILLICOTHE, O., July 30.—Mayor Brown sentenced Dow McDaniels to the Columbus workhouse for six months and to pay a fine of \$25. McDaniels tried to murder his wife with a corn-knife while intoxicated yesterday.

Frog in His Stomach.

RIPLEY, O., July 30.—Ike Jones, a white resident of this place, is afflicted with a curious malady. He claims that a frog dwells among his intestines, and so do numerous others, because they have heard it "holler."

Landed in a Mud Hole.

AKRON, O., July 30.—George Zolton fell 65 feet from a tower at the Akron Belting company's works. He landed in a mud hole and was not hurt.

GERMANY ASKING TOO MUCH.

European Control of Greek Finances Meets With Disfavor.

CONSTANTINOPLE, July 30.—The demand of the German ambassador, Baron Sauma de Jeltsch, that a provision be inserted in the peace treaty between Greece and Turkey for a European control of Greek finances meets with disfavor among the other ambassadors. They consider that it is not covered by their instructions, but should be made

the subject of direct negotiations between Germany and the other powers.

Even the Turks oppose this project, as they regard it as an attempt to take advantage of the peace negotiations in the interests of the German bondholders.

While it is thought improbable that Greece could raise the indemnity loan without such guarantees as would be provided by European control of her finances, the proposed stipulation is not regarded as in order in a treaty to which only Greece and Turkey are parties.

FLOOD IN NEW JERSEY.

Rahway, Fanwood and Other Places Badly Submerged.

NEW YORK, July 30.—The heavy rains of the last few days have flooded Rahway, Fanwood and other places in New Jersey. The residents of those places spent the greater part of the day dragging soaked merchandise from flooded stores. At Rahway the people who live in the low-lying parts were taken from their houses in boats.

The towpath of the Delaware and Raritan canal at New Brunswick is submerged. Canal traffic between that city and Trenton has been suspended and the factories along the banks have been compelled to shut down.

A bad washout occurred on the Raritan River railroad, near Milltown, where an embankment 80 feet high fell across the tracks.

The low-lying sections of Newark fared very badly and several factories on the river front were unable to operate on account of the water in the boilerrooms. A stable on Mount Prospect avenue, Newark, was washed away by the storm; loss, \$10,000.

The bridge over the second river at Belleville was swept away.

Adolph Fromm, a 10-year-old boy of Hoboken, was wading in a miniature street lake, when he fell forward into the water. It was found that he had received a severe electric shock, probably from coming in contact with a live wire or a charged trolley pole. He will probably die.

Washouts occurred on the roads of the Northern New Jersey, Greenwood Lake and other divisions of the Erie.

ENJOYING THEIR VACATION.

The McKinley Party Now Established in the Hotel Champlain Annex.

PLATTSBURGH, N. Y., July 30.—The President and Mrs. McKinley occupy a suite of seven rooms on the second floor in the southwest corner of the Hotel Champlain annex, connected with the main building by corridors. The rooms are the finest in the house and have been especially finished and furnished in elegant style and taste.

The president had few callers yesterday. General Peck, adjutant general of Vermont, came, representing the governor and the people of the state of Vermont, with handsome offerings of flowers for the ladies of the presidential party. General Peck extracted a promise that the president would visit Burlington next Wednesday and review the cavalry troops at Fort Ethan Allan and later attend a reception in his honor.

The only other plans so far made by the president are a review of the Twenty-first regiment, United States infantry and a reception by the officers at Plattsburg post, to take place probably next Tuesday; then some time next week a trip by steamer to Isle La Motte as the guests of Senator Proctor and of the Vermont game and forestry commission.

All the cabinet officers will be here more or less during August and there will be informal cabinet meetings as occasion requires. Vice President Hobart is expected next week.

SEVERE FIGHTING IN INDIA.

A Second Attack on Malakand Results in the Killing of Thirteen British.

BOMBAY, July 30.—The situation at Camp Malakand has become very serious. Word has been received that the natives in large force made a second attack on the fort yesterday. The fighting was severe. Thirteen of the British were killed and 30 wounded, among the latter being Lieutenant Castello. The tribesmen lost 100.

The worst feature of the situation now is that the garrison is out of ammunition and it is feared that the whole supply will be exhausted before reinforcements arrive. The government is making the greatest efforts to get these through in time. It is reported that Mah Mullah has mustered at least 40,000 tribesmen.

Not a Glowing Account of Klondyke.

BENTON HARBOR, Mich., July 30.—The widow of Lieutenant Schwatka, the Arctic explorer, being interviewed here concerning the Klondyke gold regions, which country she has repeatedly visited with her husband, declared that the government should stop the tide of immigrants pouring into the gold fields in Alaska. She says that the mountain passes are strewn with the skeletons of unfortunate miners who perished from either cold, heat, malaria or starvation while trying to reach the golden region.

Bullets of Solid Gold.

LONDON, July 30.—There has been serious fighting in South Africa. A dispatch from Fort Salisbury says that the British forces took the natives completely by surprise. When a charge was made upon the walls the natives fled to their caves, in which they were afterward captured. Magomishi's cave was destroyed with dynamite. Mash-ingombi was wounded during the attack and died soon after being taken prisoner. Two bullets made of solid gold were found after the fight.

BATTLE IN BRAZIL.

More Than Three Thousand Soldiers Have Been Killed.

THE FANATICS WIN A VICTORY.

Whole Brigades of Government Troops Swept Down and Trampled Under Foot. For Miles Around Canudos the Ground Is Strwn With the Dead and Dying. More Troops to Be Sent to the Scene.

NEW YORK, July 30.—A dispatch to The Herald from Rio Janeiro says that authentic information has reached that city to the effect that more than 3,000 soldiers have been killed in a big battle near the site of Canudos. The fanatics, numbering more than 10,000 men, all well armed, attacked the government troops. Whole brigades of the soldiers were swept down and destroyed, trampled under foot, as the victorious fanatics, with wild, hoarse shouts of triumph passed over them.

The full extent of the loss of life can not be told. There is no reason to doubt, however, that the loss in killed on both sides is more than 3,000.

For miles the ground around Canudos is strewn with the dead and dying, the government troops being compelled to leave their dead on the field and flee to save themselves from complete destruction by the avalanche of the fanatics.

When the report of the awful battle reached Rio Janeiro it was considered by the president and ministry and it was decided to send the minister of war to the scene next week with 4,000 men who are now gathering. They will carry with them a great store of ammunition and will endeavor to dislodge the fanatics from the position they now hold.

Fighting has been in progress at Canudos for several weeks. In the meantime, while the fanatics fought apparently with little heart, they have been gathering their forces from all directions. The result was the final attack on the government troops, which led to such awful results.

BUSINESS CIRCLES EXCITED.

The Champion Manufacturing Company Makes an Assignment.

RICHMOND, Ind., July 30.—This city has experienced another failure. At 11 o'clock yesterday the Champion Manufacturing company, of which J. V. Rowlett is sole owner, made an assignment. The liabilities will range from \$50,000 to \$60,000, with about \$75,000 in assets. The company manufactured lawn mowers, tongueless cultivators and plows, and until the recent hard times was doing a fair business.

The principal creditors are the First National bank of Richmond, nearly \$35,000; National Malleable Casting company of Indianapolis, \$5,000; La-Belle Steel company of Pittsburgh, \$1,200, and the Indianapolis Foundry company \$700. There are other creditors for smaller amounts. The First National bank, the heaviest creditor, is also a creditor of Isham Sedgwick, whose failure was noted Wednesday. The two collapses in as many days have caused some excitement in business circles.

THE STANDARD'S GREAT WELLS.

Tanks Can Not Be Constructed Fast Enough to Hold the Oil.

ALEXANDRIA, Ind., July 30.—The Standard's phenomenal well on the Blake farm is producing oil at the rate of 600 barrels a day, and the drilling is not finished. Before the stream of oil could be turned into tanks it had destroyed the entire field of corn in which the well is situated.

Tanks can not be constructed fast enough to hold the oil, and all possible haste is being made to construct a pipe line connecting the well with car tanks. This is the Standard's first success in this section. The Allegany City company's strong gas well is only a short distance away, while its 250-barrel well is on a line with the Standard's.

Sunk at Sea.

SAN FRANCISCO, July 30.—A brief message has been received announcing the loss of the whaler Cape Horn Pigeon, in the Japan sea, during a furious storm. Captain Scullam and the crew of 18 were saved, but 900 barrels of sperm oil went down with the vessel. Two thousand pounds of bone had been shipped home a short time before the disaster. The Cape Horn Pigeon was owned by J. & R. Wing of New Bedford, Mass.

Size of the Tariff Law.

WASHINGTON, July 30.—The first copies of the tariff act in law form for circulation have been received at the document rooms of the senate and house. The law makes a pamphlet of 700 pages. The members of the house will have 25,000, the senators 10,000 and the senate committee on finance 15,000 copies for distribution, making 50,000 in all to be distributed by congress.

Unknown Man Instantly Killed.

NEW YORK, July 30.—An unknown man riding on a freight train at Princeton Junction last night leaned out from a car door, and his head came in contact with a mail crane. The man was hauled to the ground and instantly killed. The crane was torn from its foundation.

PRINCETON, Ind., July 30.—Hershell Twine, who was bitten by a rattlesnake in the heel, died last evening in great agony. His leg swelled to enormous size. Twine was 17 years old.

THE National Bimetallist aptly states
 a case and asks two questions of its readers,
 as follows: "The wheat crop is short
 in France, short in Russia, almost a failure
 in Argentina, there is a famine in India
 and the American supply is rather
 less than average. Still, wheat sells in
 the Chicago market for 67 cents. Twenty-five
 years ago, under like conditions, it
 would have been worth from \$1.50 to \$2.
 What is the matter? Is it not evident
 that money is even scarcer than wheat?"

"PROMOTERS OF ANARCHY."

Pardoning Power Used Or Abused To De-
 stroy All Respect for the Law.
 Disgraceful Record Made
 by Republicans.

[Louisville Post.]
 Much has been said in a general and
 tolerant way of the abuse of the pardon-
 ing power by Gov. Bradley and his able
 assistant, Lieutenant-Governor Worth-
 ington, but few persons have any knowl-
 edge of the extent of this abuse; and un-
 til the record is placed fully before the
 people, no one could understand why
 mobs multiplied and why the public atti-
 tude in regard to the mob has been so
 manifestly modified.

The Evening Post publishes herewith
 the whole black record. On the 10th of
 December, 1895, Gov. Bradley was inau-
 gurated Governor of Kentucky. The list
 of pardons brings the record down to
 June 30, 1897, a period of one year, eight
 months and twenty-one days.

In that time 675 persons have been
 pardoned, omitting those who have
 merely been pardoned in order to restore
 them to citizenship. *These pardons have
 been for all the crimes on the statute books, but
 are, in the main, pardons for the greatest
 crimes men can commit.* Small offenses are
 rarely punished; when punished, the
 sentence is light and soon satisfied.

Thirty-two murderers, sentenced for
 life, have been released, after serving, on
 an average, just eight years. In other
 words, when a man is sentenced for life,
 he can expect a pardon in eight years.

Three murderers, sentenced to be
 hanged, have had their sentence com-
 muted to life imprisonment.

Sixty-four convicts, who had "killed
 their men" and who were convicted of
 manslaughter, have been pardoned. In
 all, ninety-six murderers have been
 turned loose on society since the inaugu-
 ration of Gov. Bradley.

It is interesting to compare the sen-
 tences for manslaughter with the term of
 execution.

Sentenced for 17 years, one served 3
 years; for 16, 7; for 10, 3; for 4, 2; for 21,
 11; for 3½, only 1 month; for 15, 5; for 10,
 3; for 21, 4; for 20, 9.

These sixty-four men-slayers received,
 on an average, an eight-year sentence,
 and were released after serving three
 years.

This record shows very clearly why the
 people have lost faith in the courts, in
 the Governor and in the law, and it shows
 why an outraged community appeals so
 promptly to Judge Lynch.

It shows, further, how to suppress
 mobs; suppress pardons.

The Post publishes the list complete,
 and an examination of it brings out an-
 other significant feature of this disgrace-
 ful abuse of the pardoning power by these
 Republican officials, namely the prosti-
 tution of the pardoning power for politi-
 cal purposes.

Prior to the election last fall it was
 talked on the streets that any convict
 could get a pardon or be restored to citi-
 zenship if he would promise to vote the
 Republican ticket. Whether there was
 any ground for this talk or not the BUR-
 LETS does not know, but the record in-
 dicates strongly that there was. During
 the months of June, July, August, Sep-
 tember and October over one hundred
 convicts were restored to citizenship. This
 does not include the many who were par-
 doned out of the penitentiary during the
 months named, but just those who were
 restored to citizenship. And it is a very
 significant fact that most of these restor-
 ations to citizenship were granted just a
 short time prior to the Presidential elec-
 tion. Here's the list for two or three
 days:

September 24, 1896—Silvester Trusty,
 Monford Condill, Sherman Brown, Rich-
 ard England, Jas. Tackett, Jeff Trusty,
 John Puckett, Wm. Hampton, (April
 1891), Hezekiah Gibson, Deial Risner,
 Marshall Risner, Lincoln Nickle, Tiney
 Nickle, October, 1891; Reuben Patrick,
 all of Magoffin, restored to citizenship.

September 29, 1896—Meredith Poe,

And so the disgraceful work continues.

QUEER METHODS Of Republican Officials of Kentucky in Dealing With the State's Creditors.

FRANKFORT, Ky., July 28.—The State
 administration is coming in for consider-
 able adverse comment on the methods
 pursued by it in issuing the interest-bear-
 ing warrants to the State's creditors as
 provided for by the last Legislature; in
 fact, a number of creditors are making
 open kicks on the way they have been
 treated.

One citizen of Carlisle wrote to the
 proper officer in Frankfort, telling him
 he had a warrant, issued some months or
 a year ago, which he wanted to exchange
 for an interest-bearing warrant, as pro-
 vided in the Legislative act. He received
 a reply telling him to forward his old
 warrant to the Auditor and a new inter-
 est-bearing warrant would be sent him.

He did as requested, but instead of an
 interest-bearing warrant being sent to
 him he was surprised to receive by ex-
 press the amount of his warrant in
 money. He wanted the warrant, and
 not the cash, so he investigated, and was
 told that his interest-bearing warrant had
 been turned over to a hank that took it
 at its face value and forwarded the money
 to him.

In other words, the State administra-
 tion is taking away from the owners of an
 interest-bearing warrant the right to sell
 that warrant to whom he pleases or to
 keep it and draw the interest himself,
 and also assumes the right to turn over
 these warrants to any bank that they
 choose without asking the consent of the
 warrant owner.

Most of the State's creditors have been
 kept out of their money so long that
 when the bank sends them cash instead
 of the warrant they are so glad to get the
 cash that they make no kick, but others,
 who are money lenders themselves, or
 prefer to sell their warrants to some one
 of their own choosing, are making a kick,
 and some legal proceedings may result
 and an attempt made to prevent the Re-
 publican officials from signing away the
 rights of the warrant owners.

CIVIL SERVICE.

Hangry Republicans Not Much Pleased
 With President McKinley's
 New Order.

WASHINGTON, July 28.—The Democratic
 employes in the classified service of the
 Government had a right to feel good this
 morning.

The President ruled that none of them
 can be dismissed from the service unless
 written charges are made against them.
 In that event they will be afforded an op-
 portunity to defend themselves.

As to the changes made in the civil ser-
 vice law, by President McKinley this
 week, instead of the Internal Revenue
 Collector having fifteen or twenty ap-
 pointments to make he only has three,
 and each of these is required to pass a
 civil service examination. The Civil Ser-
 vice Commissioners are entitled to a
 great deal of credit for the action of the
 President.

Prof. Proctor, the President of the com-
 mission, was particularly active in his op-
 position to the raids of the place hunters.

Those who sneer at the "snivel" service
 will not find any consolation in the Presi-
 dent's action. Instead of tearing down
 the bars and opening the gates he has
 only strengthened them, as will be seen
 by the following taken from the explana-
 tory statement of the new rules given
 out officially at the White House: "The
 amendments to civil service rules which
 the President has signed are the most dis-
 tinct steps forward that have been made in
 the civil service regulations since the
 passage of the original law. Up to the
 present time nearly all the regulations
 have been aimed at throwing safe-
 guards around the method of entry into
 the service. There has been almost
 nothing looking toward the enforcement
 of the spirit of civil service reform within
 the service itself. Many prominent civil
 service reformers believe that regulations
 enforcing proper observance of the spirit
 of civil service reform within the service
 would be of much greater importance
 than anything that could be formulated
 in regard to the entry into the service it-
 self and it is in this direction the amend-
 ment which has just been signed by the
 President has aimed.

"Another distinct step taken forward
 is in the customs. All customs, are, by
 the order just signed, placed in the
 classified service. There are, under
 President Cleveland's orders, sixty-five
 ports where the number of employes are
 five or less left out of the classified ser-
 vice. All the employes of these sixty-
 five ports are by this order embraced in
 the classified service with the exception
 of a deputy and a cashier at the principal
 ports and one deputy at each sub-port or
 station."

The number of officers in the customs
 and internal revenue services exempted
 from the operation of the regulations by
 the order has not been ascertained, but
 it is understood not to be greater than
 the number to which the protection of
 the classified service is extended by the
 President.

W. C. RICHARDSON, Private Secretary to
 Superintendent Scott of the Eastern Ken-
 tucky Lunatic Asylum at Lexington, has
 resigned because "Dr. Scott accused him
 with delivering the famous "asylum write-
 up" receipt into the hands of his enemies
 in the institution."

THE EDDYVILLE PEN.

"No Better Location in the State for Such an Institution," Says This Contractor.

[Enquirer.]

Mr. F. A. McClelland, who is working 200 of the convicts in the Eddyville (Ky.) penitentiary in the broom factory, &c., is at the Emery on business.

"The Eddyville prison is in a 50 per cent. better condition now," said Mr. McClelland, "than it was when I first went there two years ago. It was at that time in a miserable mess, and you may have seen much miserable talk about its abandonment by the State, but when the Legislative Committee visited the prison they at once concluded that there was no better location in the State for such an institution. At a rough guess I should say that the State has expended \$1,500,000 there. The administrative building in which are the offices of the officials and contractors' sleeping apartments for the guards, Deputy Warden's quarters and commissary department is the finest building in the State, built of stone, four stories, and must have cost \$500,000. The prison area of 12 acres is inclosed by a stone wall 30 feet high. The prison is situated on a high bluff overlooking the Cumberland river, down to which we have a tramway for loading and unloading boats. It is an exceedingly well-drained and healthy location, and the prison is now kept as clean as a whistle.

"The railway station is about a half mile from the prison, connected by an excellent macadamized road built by the State. There are now 525 convicts there, 75 per cent. of whom are negroes. There are a number of boys within the walls who should be in a separate penal institution. There are only 200 of the convicts at work, for the reason that all the factory buildings were burned last May a year ago, and have not been rebuilt. We pay the State 35 cents a day for the labor of each convict we employ, the State feeding and clothing them. When the factories have been restored and all put to work the prison will be self-sustaining and make some money for the State. The convicts are compelled to take a shower bath every Saturday afternoon, and are then furnished with a clean suit of clothes."

We need second-hand bicycles. Will allow a liberal price in exchange for new wheels. Call and see our wheel for \$35, former price \$75. J. T. KACKLEY & Co.

Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents per bottle at J. James Wood's drug store.

A distinction without a difference amounts to but little. There is a difference—a real difference—a vast difference between Sutherland's Eagle Eye Salve and any other. The greatest difference is in the results obtained from its use. It cures sore eyes, granulated lids and styes quicker than any known remedy and cannot injure the eye of a babe. EPHRAIM HAMMOND, a pensioner and a veteran of the Mexican and Civil wars, aged ninety years, was found at Newport Wednesday in a helpless condition. He stated that he was drawing a pension of \$1 per day and had until a few days ago been an inmate of a private hospital in Cincinnati, where he was undergoing treatment for paralysis. Finding that he was getting no relief he left and decided to attempt to walk to Ripley, his home, as he did not possess sufficient money to buy a railroad ticket. He became exhausted at Newport. Mayor Biltz sent him home.

AT RUGGLES.
The Services Wednesday Morning Devoted
to the Epworth League—The
Program.

RUGGLES CAMP GROUNDS, JULY 25TH, 1897.
Editor Bulletin: The early sun rise prayer since
this morning was a warm, impressive meeting
led by Rev. F. W. Harrop.

The 9 o'clock service led by Brother Walsh was
also a feast to the soul and filled with bright
testimonies which showed that the interest in
the meeting is growing and by the time Brother
Swadener comes we hope that the harvest of
souls will be ready to reap for the Master.

The 10 o'clock service was devoted to the inter-
est of the young people, or the Epworth League.
The program rendered was as follows:

Opened with some beautiful songs by the
choir. Then Miss Jones, daughter of Rev. Wm.
Jones, gave us a recitation—"Never Marry a
Drunkard." Harry Richardson followed with a
cornet solo.

Song by the Junior League of Maysville, "Keep
Step in the March, Keep Step."

Miss Florence Dodson, reading—"The Master is
Coming."

Song by the choir.

Miss Stella Bowman—Recitation.

Miss Annie Dodson—Solo.

Miss Lula Walsh, recitation—"The New Cook."

Five minutes talks by Rev. Harrop—"On the
Spiritual Department;" Rev. F. W. Harrop—
"Mercy and Help Department;" Rev. H. J.
Ramey—"Literary Department;" G. N. Harding
—"Social Department."

Song by the choir.

Dr. Bowman—General remarks.

This was altogether an impromptu program,
but it was interesting throughout.

At 5 o'clock p. m. Prof. Crabbed the children's
service by a black board rehearsal. This was a
most interesting service and greatly enjoyed by
the children and grown people as well. The
professor is the children's friend, and he can
rally them at any time, for where he leads they
follow.

Rev. Parsons of the Indiana conference
preached at 7:30, followed by Rev. G. N. Grizzle,
of Maysville. M. J. W.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N. Y., pub-
lished the first edition of his great work, The
People's Common Sense Medical Adviser, he an-
nounced that after 600,000 copies had been sold at
the regular price, \$1.50 per copy, the profit on
which would repay him for the great amount of
labor and money expended in producing it, he
would distribute the next half million free. As
this number of copies has already been sold, he
is now giving away, absolutely free, 300,000 copies
of this most complete, interesting and valuable
common sense medical work ever published—
the recipient only being required to mail to him,
at above address, twenty-one (21) one-cent stamps
to cover cost of mailing only, and the book will
be sent postpaid. It is a veritable medical library,
complete in one volume. Contains 1008 pages
pages, profusely illustrated. The free edition is
precisely the same as that sold at \$1.50 except
only that the books are in strong manilla paper
covers instead of cloth. Send now before all are
given away.

George, died at that place yesterday.
She was in her 64th year.

Expectant Mother is
filled with pain,

"Mother's Friend"

prepares the system for the change taking place
nature's way to make child-birth easy and
leaves her in a condition more favorable to
speedy recovery. It greatly diminishes the dan-
ger to life of both mother and child.
"My wife suffered more in ten minutes with
either of her other two children than she did
altogether with her last, having previously used
four bottles of 'Mother's Friend.' It is a bless-

says a customer." HENDERSON'S PAIN EXPELLER, 111

STEAMER FROM HAWAII.

Nothing of a Startling Nature Has Oc-
curred on the Island.

SAN FRANCISCO, July 30.—The steam-
ship Alameda has just arrived from
Australian ports via Samoa and Hono-
lulu. Nothing of importance has oc-
curred at Hawaii since the departure of
the previous steamer. On July 22 For-
eign Minister Cooper made public the
Hawaiian side of the recent diplomatic
correspondence with Japan. The Ha-
waiian government in this crisis main-
tains its right to regulate Japanese im-
migration, and finally offers to leave
the settlement of the difficulties to ar-
bitration.

T. F. Lansing has been appointed
minister of finance to succeed S. M.
Damon, who is now in the United
States. Mr. Lansing will probably re-
turn upon Mr. Damon's return.

News has been received of her majesty's
ship Rapid, which has been cruising
among the Solomon islands and punish-
ing the natives for the murder of Cap-
tain Gibbons five months ago. Six vil-
lages were burned and hostages re-
ceived.

John Adams a grandson of the bounty
mutineer and one of the oldest of the
Pitcairn islanders, died last May at
Norfolk island at the age of 68. Adams
took a leading part in the island's af-
fairs.

Another massacre is reported from
the interior of New Guinea. It is stated
that a party of men making their way
through on the Vanapa track, camped
near the village. They were all slaugh-
tered, it is supposed, by mountain tribes.
A party of police was sent to the scene,
but the leader returned sick. No de-
tails are available.

Portuguese Flag Incident.

WASHINGTON, July 30.—The incident
at Monterey, Cal., on the Fourth of
July involving the destruction of a
Portuguese flag is well on the way
toward a settlement. A report has
been received at the state department
from the governor of California upon
the results of the investigation made
by the state authorities into the case at
the request of the department. This
shows that the affair was the work of
some irresponsible person whom it has
not been possible to identify and punish
and the people of Monterey are unani-
mous in condemnation of the insult.

Only Slight Hopes For Andree.

STOCKHOLM, July 30.—Dr. Ekholm,
who was associated with Herr Andree
in his projected balloon voyage last
year, writes to The Aftonbladet that
he declined to join in the present at-
tempt because the impermeability of
the balloon was unsatisfactory. He
says it lost 51 cubic metres of gas daily
from the time of inflation. In his opin-
ion it would not float longer than from
22 to 24 days. Inasmuch as the voyage,
under ordinary conditions of wind,
would take at least 24 days, Dr. Ek-
holm believes Andree will be remark-
ably fortunate if he succeeds at all.

Death During the Honeymoon.

HOUSTON, July 30.—Jules Bunnell, a
photographer, and Miss Ellis Lu Wil-
lamson were married at San Marco
last week and went to Galveston, where
Bunnell thought he could get work.
He failed to find it and the young
couple came here. They were found in
their room at the Hutchins House near-
ly dead from the effects of morphine
taken with suicidal intent. Heroic
measures were at once adopted, but
both died.

New Natural Gas Territory.

OSGOOD, Ind., July 30.—This city is
now the southern boundary of the In-
diana gas belt. A well which has been
drilled here was shot last night and the
flames shot 200 feet in the air. Should
other wells being drilled prove as pro-
ductive it may not be long until Cin-
cinnati can be supplied with natural
gas.

Grand Seashore Excursion to Old Point
Comfort.

The most attractive of all excursions
announced by the C. and O. route for
regular trains leaving Wednesday, Aug-
ust 11th, is to Old Point Comfort and
return. The scenery of the Chesapeake
and Ohio is noted for its variety and
beauty. The route is replete with points
of historic interest and excursion tickets
will be good for stop over at Hot Springs,
Va., White Sulphur Springs, W. Va.,
Richmond, Va., and numerous mountain
resorts. Twelve dollars round trip from
Maysville. Tickets good fifteen days.

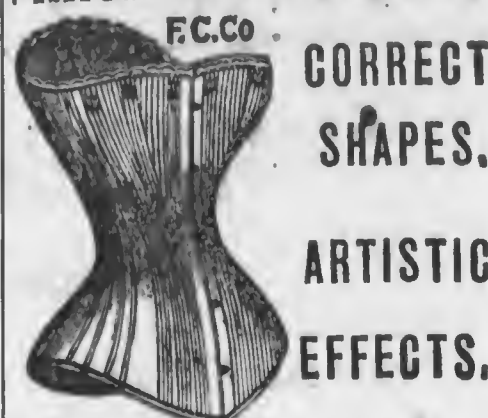

Park Theatre.

Another large crowd was out at the
park last evening. That Maysville peo-
ple know where to go is evidenced by
the attendance. Master Reese, the lad
who walks the high wire, is certainly a
clever little artist. He performed some
very difficult feats. The show is worthy
of repeated visits. This is amateur night
and a varied and laughable program will
be presented. A cake walk by Mays-
ville's ducky 400 will be a feature.

A STATEMENT of the condition of the
First National Bank appears elsewhere
in this issue. It shows individual de-
posits of \$226,797.11 and certificates of de-

undivided profits are nearly \$12,000.
